

Structural Designer / Site-Engineer / Draftsman

Overview

Ingenieursbureau XYZ is a company of engineers, innovators, and creative people who solve structural challenges. Providing structural engineering services within the mobile telecommunication industry, we engineer solutions that are cost- and resource-efficient and forward-thinking. Founded in 2006, we are headquartered in Arnhem, The Netherlands and Beograd, Serbia and have 20+ professionals working in both offices.

Responsibilities

We are looking for an Engineer who will be responsible for:

- Prepare modification drawings that include upgrades, extensions and reinforcements of Antenna Base Stations. This can be poles on rooftops of towers.
- Prepare drawings and steelwork drawings.
- Prepare other drawings and CAD products as needed by Engineering
- Create preliminary bills of materials, quantity estimates, and fabrication drawings for proposed projects.
- Collaborate on design matters with Engineering staff.

In this position, the individual will be required to work closely with a team of Structural Engineers, Site-Engineers and Draftsmen. A willingness to work in a team environment, following the standards we have in place is a must. A “can-do”, client-focused attitude is crucial.

Qualifications

- Basic knowledge of structural components and design methods.
- Ability to produce structural modification drawings and be accurate and detail oriented.
- Proficient in computer software programs, including AutoCAD and Microsoft Word, Outlook and Excel.
- Strong follow-up skills; ability to organize applicable department timelines and follow up with internal and external customer needs as needed.
- Excellent written and verbal communication in English. (Dutch and German is a plus).
- Strong organizational skills; ability to accomplish multiple tasks within the agreed upon timeframes through effective prioritization of duties and functions in a fast paced environment.
- Self-motivated, able to work both independently to complete tasks and respond to department requests as well as collaborating with others to utilize resources and knowledge in identifying high quality solutions.

Ingenieursbureau XYZ is an equal opportunity employer and provides all of its employees with a competitive compensation and benefits package.
